### PEG VAN SINDEREN & LYNNETTE KURRLE

*We sadly lost two long time members & friends recently, with the passing of Peg & Lynne. Deep heartfelt sympathy is extended to Henk, John and their families. They will be missed by us all.*

*Material contained herein is for members information only and no recommendation is carried or implied.*

A guy buys a new Lincoln Navigator for \$42,500.00 with monthly payments of \$560.00.

He and a friend go duck hunting in upper Wisconsin.

It's mid-winter.....and of course all of the lakes are frozen.

These two guys go out on the ice with their GUNS, a DOG, and of course the new NAVIGATOR.

They decide they want to make a natural looking open water area for the ducks to focus on, something for the decoys to float on.

Now.....making a hole in the ice large enough to invite a passing duck, is going to take a **little more power** than the average drill auger can produce. So.....**out** of the back of the **new Navigator** comes a stick of dynamite with a short 40 second-fuse.

Our two Rocket Scientists.....afraid they might slip on the ice while trying to run away after lighting the fuse (and becoming toast, along with the Navigator), decide on the following course of action:

- they light the 40 second fuse; then, with a mighty thrust,
- they throw the stick of dynamite as far away as possible.

Let's talk about the dog:

A highly trained Black Lab used for **RETRIEVING**: especially things thrown by the owner.

You guessed it.....The dog takes off across the ice at a high rate of speed and grabs the stick of dynamite, with the burning 40-second fuse.....just as it hits the ice.

The two men swallow, blink, start waving their arms and, with veins in their necks swelling to resemble stalks of rhubarb, scream and holler at the dog to stop.

The dog, now apparently cheered on by his master, keeps coming.

One hunter panics, grabs the shotgun and shoots the dog. The shotgun is loaded with #8 bird shot, hardly big enough to stop a Black Lab.

The dog stops for a moment, slightly confused, then continues on. Another shot, and this time the dog, still standing, becomes really confused and of course terrified, thinks these two geniuses have gone **insane!!!!!!**

The dog takes off to find cover, **UNDER** the brand new Navigator.

The men continue to scream as they run. The red hot exhaust pipe on the truck touches the dog's rear end.....he yelps, drops the dynamite under the truck and takes off after his master.

Then KA BOOOOOOOOOOOOOOM!

The truck is **blown to bits** and sinks to the bottom of the lake, leaving the **two idiots** standing there with 'I can't believe this just happened' looks on their faces.

The insurance company says that sinking a vehicle in a lake by illegal use of explosives is NOT COVERED by the policy. And he still had yet to make the first of those \$560.00 a month payments.

The dog is okay doing fine
